### Note :

In order to initiate this journey, we need a minimum subscription of \$100 for 1 years or 12 months to access to CRM account in MetaTrader 5 (MT5). # WORKING PLAN

WINFX offers a structured income distribution system designed to reward users through multiple earning streams. The plan is divided into three main categories: Referral Income, Matching Income, and Level Income.

## REFERRAL INCOME - 20%

When you refer a new user to WINFX, and they activate their bot plan, you receive 20% of their plan amount as a referral bonus. This is a direct reward for bringing new members into the platform.

## MATCHING INCOME - 50%

Matching income is earned based on your team's performance. You receive 50% of the total business volume (BV) generated by your weaker team (or downline) in the binary structure. This ensures a steady income based on the trading activity and growth of your network.

## LEVEL INCOME - 30% (1ST TO 15TH LEVEL - 2% EACH)

Level Income allows you to earn a 2% commission from the earnings of users placed up to the 15th level in your team. This provides a long-term passive income as your network expands, ensuring you continue to earn from the trading activities of your referrals and their downlines.

### Note :

Whenever a user withdraws earnings from their account, a 10% fee is deducted. This helps sustain the platform and maintain smooth operations. In addition, the user must provide 1 direct referral to unlock each level up to 15 levels.

# LIVE TRADING PLAN

## MINIMUM DEPOSIT - \$200

In MT5 trading, profits are distributed evenly between clients and the Bot, following a 50/50 sharing model. This ensures a balanced and fair profit allocation, allowing both parties to benefit equally from successful trades.

## BOT'S 50% SHARE DISTRIBUTION

70% of the Bot's earnings are allocated across 30 income levels. To qualify for earnings from these levels, traders must fulfil specific direct referral requirements. This structure encourages active participation and rewards users based on their referral contributions.

# LEVEL OPENING CONDITIONS

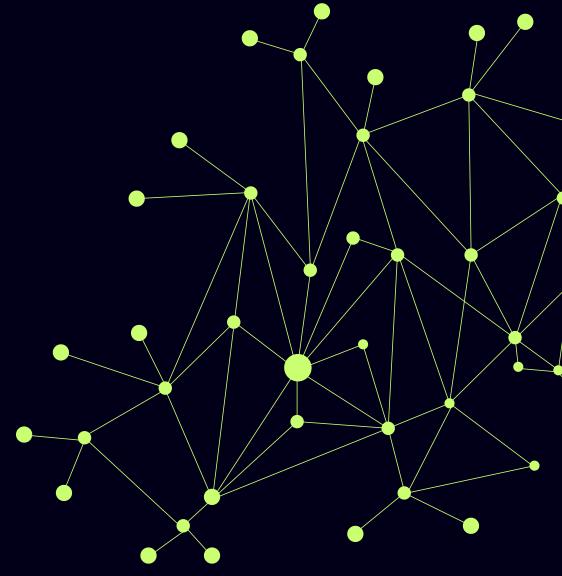

- **Unlocking 2 Levels** - Requires 1 direct referral (this process will continue till Level 16)
- **Unlocking all 30 levels at once** - Requires 8 direct referrals
